[From Andrew's American Queen.]

CLEOPATRA,

QUEEN OF SHERA'S BEAUTY;

WAS BUT SKIN DEEP.

The renowned Queen of Sheba, with all her royal pomp, magnificent apparel, and brilliant retinue, would never have appeared within the presence of the grandest of the monarchs of the past had she not also possessed that which is the crowning glory of the female person—a skin unchallenged for its Oriental softness and its almost transcendental purity. Cleopatra, holding Emperors at bay and ruling empires by her word, had quickly lost her charm and power by one attack of blisters, or of pimplies, or of horrid tan and freckles.

WOMAN RULES THE WORLD.

By her beauty not less than by her purity of character, loveliness of disposition, and unselfish devotion. Indeed, in the estimation of perhaps to many men, beauty in a body takes precedence over every other consideration. Beauty thus forms an important part of woman's "working capital," without which too many (if not bankrupts) what relates to influence within the circle where they move are powerless for great good. Hence we see not only the propensity but the duty of every lady preserving with zealous care that which to her is essential to success and influence and usefulness in life. And since "beauty is but skin deep," the most care and vigilance are required to guard it against the many ill that flesh is heir to. Among the great and annoying enemies of beauty

OF EITHER SEX,

as well as of comfort, happiness, and health, are those pestiferous and horrid skin-diseases—itteritious, herpes, scrofula (salt-hem), rough and scaly eruptions, rashes, pimplies, and all diseases of the hair and scalp. For the cure of all these Dr. C. W. B. BROWN, of Baltimore, after years of patient study and investigation devoted to diseases of the skin, has already, by his marvelous cures established itself as the oracle of all matters of the skin. His name has been famous and unparalleled, and his drugs have it. Elegantly put up in bottles, in one package Internal and external treatment.
